October 30, 2008

AEROMIX Systems, Incorporated has been exhibiting at the Water Environmental Federation trade show for almost two decades now. This year, our short week in Chicago was very successful. We were pleased to see so much interest in our complete line of aerators, mixers, diffusers, and treatment systems for water and wastewater.

Many shared our enthusiasm in regards to the newest member of the TORNADO™ aerator family, the **TORNADO Eco™**. To find out more about the world's first **GREEN** aeration system, please open this link in your browser to download the brochure: <http://www.aeromix.com/documents/tornadoecobrochure.pdf>

TORNADO  **ECO™**

If you would like to get more information on the new TORNADO Eco™ or any of our products please call us at 1-800-879-3677 / 763-746-8400 for more information.

Thank you,
Melauna Estrada
