AEROMIX Announces Launch of New Corporate Website

AEROMIX is eager to announce the launch of our brand new website; accessible to the public on January 1st! The site was redesigned to better meet the needs of our current and potential customers, as well as our reps and distributors worldwide. You'll notice quite a few changes. We added a search bar at the top of the screen to assist you in finding exactly what you need. Now you can download product manuals online and explore the AEROMIX Worldwide map to see case histories and press releases involving AEROMIX projects across the globe.

We are confident that the user-friendly navigation and professional look of the new site will appeal to you and all of our visitors. Please take a few minutes to browse through our new site on or after January 1st. If you experience any technical difficulties with the site please contact Melauna Estrada at 763-746-9294 or 1-800-879-3677 ext. 294 or by email: estrada.melauna@aeromix.com. We appreciate your feedback.

The screenshot shows the AEROMIX corporate website. At the top is the AEROMIX logo and tagline "Rugged Solutions in Water and Wastewater". A search bar is located in the top right corner. Below the logo is a navigation menu with links: Home, About Aeromix, Aeration Equipment, Treatment Systems, Locations, News, Resources, and Contact. The main content area is divided into several sections: "AEROMIX - Leaders in Aeration, Wastewater Treatment, Water Treatment & Process Systems" with a detailed description and a list of clients (US Army Corps of Engineers, Halliburton, Kellogg Brown & Root, Contrack International, Coca Cola); "Aeration Equipment" with an image of a large industrial tank; "Treatment Systems" with an image of a water treatment facility; "Case Studies" with an image of a sunset over water; and "Resources" with an image of a person working on a site. At the bottom, there are three columns: "News @ AEROMIX" with links to "Hurricane - Proctor and Gamble Plant in Mariscal, Mexico >>" and "Compact Water Treatment System in Iraq >>"; "AEROMIX Worldwide" with a world map showing project locations; and "Signup for the AEROMIX eNewsletter" with a form for Name and Email, and a Submit button. A footer navigation menu is also visible at the bottom.

AEROMIX is a world leader in water and wastewater treatment equipment. Contact Melauna Estrada for more information on our aeration equipment and treatment systems.
