AEROMIX Supplies Packaged Plants for Camp Victory Base in Baghdad, Iraq

In recent years, AEROMIX has been involved in the reconstruction of Iraq and in water/wastewater treatment projects in the Middle East; supplying aerators, packaged wastewater treatment plants, and compact water treatment systems (see attached photos). In 2006, AEROMIX had the privilege of working with the USACE.

The USACE was so impressed by the equipment AEROMIX supplied to Camp Victory's wastewater treatment plant, they posted a video about the project on their Gulf Region Division website. Please see our 60 second video featuring the USACE project: Reconstruction of Camp Victory Base in Baghdad, Iraq:

AEROMIX is a world leader in water and wastewater treatment equipment. AEROMIX designs and manufactures advanced aeration and mixing technologies for water and wastewater, package and field-erectable wastewater treatment plants and drinking water systems. Contact Melauna Robinson for more information on our water and wastewater treatment equipment.
