### **AEROMIX Announces Shipment of 3,900 GPD Sewage Treatment System**

In January of 2008, AEROMIX Systems, Inc. was awarded a wastewater treatment project for Longview Power Plant in Madsville, WV. We are happy to announce the recent shipment of that equipment. Installation and start-up will commence soon. The sewage treatment system is a part of a \$1.8 billion dollar new power project that is scheduled to be completed by 2011. Aker Construction, Inc., formerly known as Aker Kvaerner Songer of Canonsburg, PA serves as the constructor on the project. The owner of the plant is Longview Power, LLC.

Our Pre-Engineered Package and Field-Erectable wastewater treatment plants, as well as compact potable water plants, are capable of treating anywhere from 1,000 to several million gallons per day.

AEROMIX is a world leader in water and wastewater treatment equipment. Contact Melauna Estrada for more information on our aeration equipment and treatment systems.

END

**Aker Construction, Inc.** and **Aker Construction Canada Ltd.** are the union construction arm of Aker Solutions, which provides a full range of construction, maintenance and renovation services to the North American industrial sector. Our services are characterized by the highest standards of safety, quality, teamwork, innovation and cooperation, thus enabling us to respond to the needs of our customers and deliver on-time and in-budget performance. Direct hire union construction, maintenance and renovation services are provided to the power, steel, chemical, petro-chemical, and other industrial sectors in North America. In addition, Aker Construction provides construction management and project planning services to the above sectors on an international basis.

**Aker Solutions ASA**, through its subsidiaries and affiliates ("Aker Solutions"), is a leading global provider of engineering and construction services, technology products and integrated solutions. Aker Solutions' business serves several industries, including oil & gas, refining & chemicals, mining & metals and power generation. The Aker Solutions group is organised in a number of separate legal entities. Aker Solutions is used as the common brand/trademark for most of these entities.

Aker Solutions' parent company is Aker Solutions ASA. Aker Solutions has aggregated annual revenues of approximately NOK 58 billion and employs approximately 24 000 people in about 30 countries.

Aker Solutions is part of Aker ([www.akerasa.com](http://www.akerasa.com)), a group of premier companies with a focus on energy, maritime and marine resource industries. The Aker companies share a common set of values and a long tradition of industrial innovation. As an industrial owner controlling 40.27 percent of the shares in Aker Solutions through Aker Holding AS, Aker ASA takes an active role in the development of Aker Solutions.
