

Rugged Solutions in Water and Wastewater

ECO-AERATION

AEROMIX is Your Solar Solution in Aeration and Circulation.SM AEROMIX offers a comprehensive line of water quality management products that are completely powered by solar energy. AEROMIX Eco Aeration products are used in ponds, lakes and reservoirs, for algae and odor control, reducing chemical consumption, improved mixing, aeration, digesting bottom sludge, ice control, and fish kill prevention.

Let our technical experts assist you in the proper sizing, layout and operation of your next solar powered aeration or circulation system.

**LumenAER™
Solar-Powered Circulator**

SunAER™ Diffused Air System

SolarAER™ Surface Aerator

AuraAER™ Floating Fountain

**PhotonAER™
Submersible Aspirator**

AEROMIX Eco-Aeration Products:

LumenAER™ Circulator

- Solar-Powered Floating Circulator
- Operates 24/7
- Rapid oxygenation and distribution removes or reduces odors, excess algae, excessive nutrient concentrations and digesting bottom sludge
- Applied in lakes, estuaries, stormwater detention ponds, polishing ponds, drinking water reservoirs, and more

AuraAER™ Fountain

- Solar-Powered Floating Fountain
- Operates 24/7
- Aerates to control algae formations, add oxygen, reduce, and prevent fish kill
- Ideal for lakes, residential and commercial ponds, shallow ponds, and water fish ponds

SunAER™ Diffused Air System

- Solar-Powered Diffused Air System
- 1 to 4 diffuser models available
- Vertical water circulation for total pond treatment
- Uses air bubbles to add oxygen, eliminate stratification, and promote aerobic decomposition of bottom muck, dead plants, and other waste materials from small water bodies

PhotonAER™ Submersible Aerator

- Solar-Powered Submersible Aerator
- Operates 24/7
- Fine bubble discharge destratifies and provides horizontal water circulation
- Ideal for shallow water bodies, only requiring a 2 foot (.6 meter) depth.

SolarAER™ Surface Aerator

- Surface Aerator
- Operates 24/7
- Horizontal water movement increases dissolved oxygen levels over a wide area
- Ideal for use in lakes and ponds
- Operates year round in any climate

Rugged Solutions in Water and Wastewater

AEROMIX is a world leader in water and wastewater treatment equipment. With decades of proven reliability and unique installations in 75 countries, AEROMIX systems are depended upon by prominent organizations across the globe. AEROMIX offers full lines of treatment systems, aeration equipment and solar-powered equipment. Please visit www.aeromix.com to learn more.
