

AERONIX

Rugged Solutions in Water and Wastewater

TORNADO ECO™

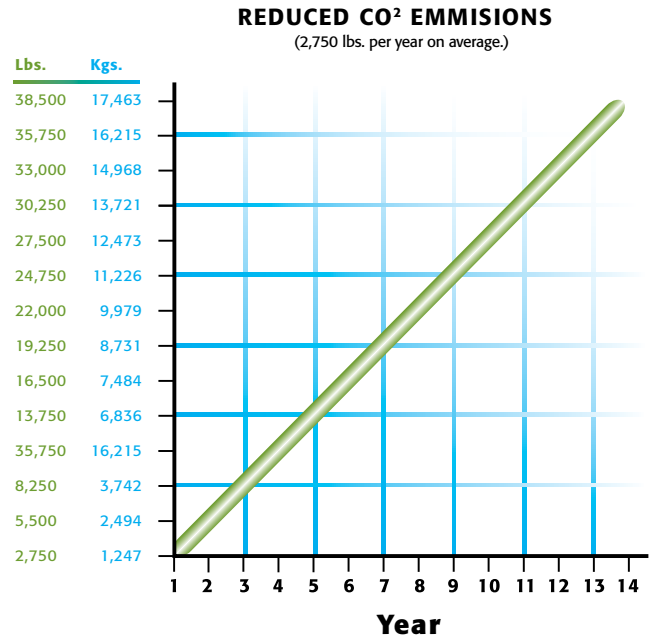

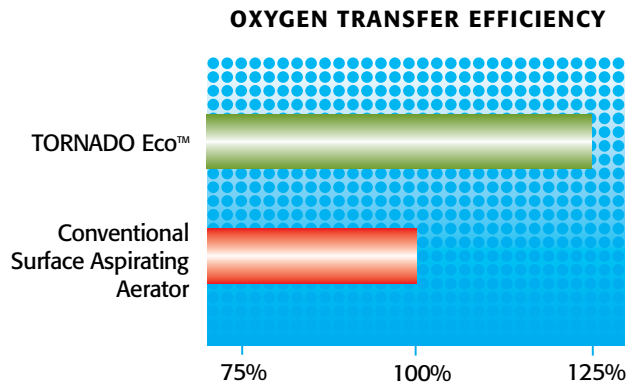

The World's First "Green" Aeration System

Introducing

TORNADO ECO™

The TORNADO Eco™ Aeration System – Breakthrough design for unmatched efficiency and power savings

Aerators are often the largest consumers of energy in wastewater treatment plants. Now there is a green aerator designed to save energy, reduce green house gases and be 100% recyclable. The TORNADO Eco™ Aeration System has arrived.

Special TORNADO Eco™ power management system may allow you to get special energy saving credits

- Many utilities offer credits to users when installing solar or wind powered equipment. TORNADO Eco™ aeration systems can earn energy credits for you.

Rugged Solutions in Water and Wastewater

TORNADO ECO™

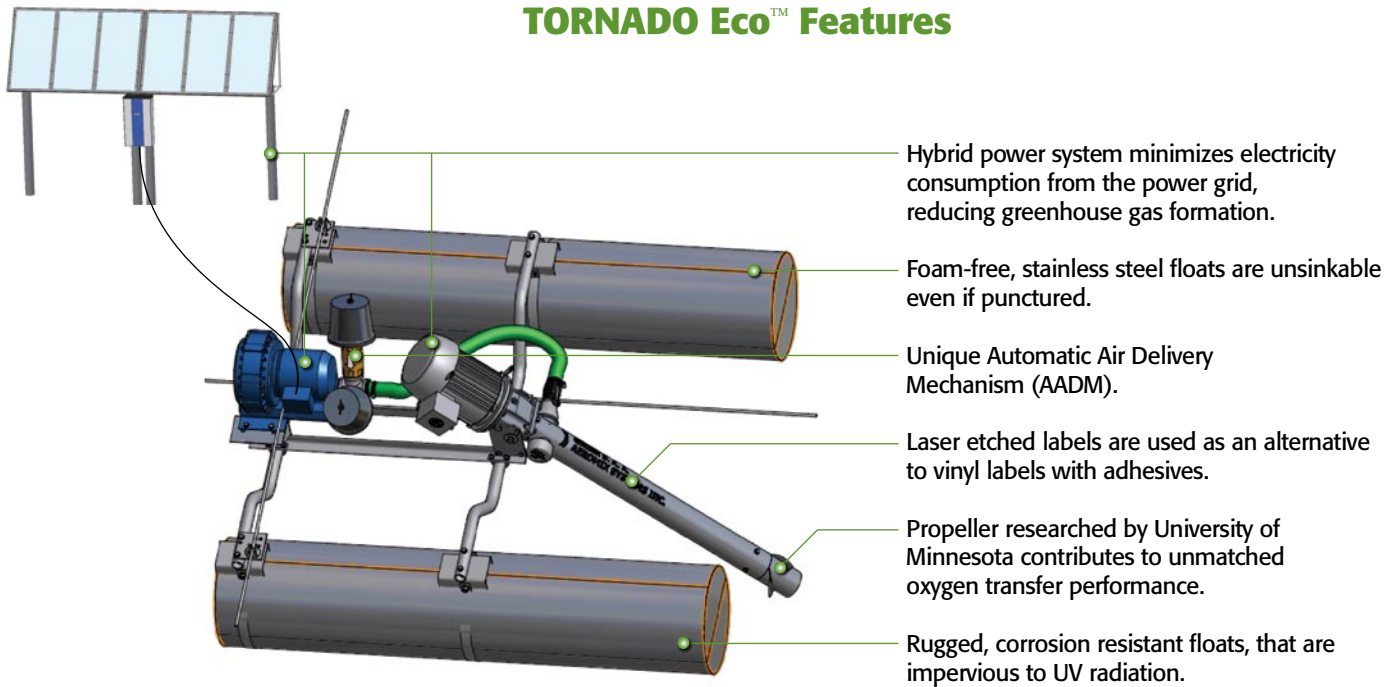

Uses no plastics or foam – saves the environment, saves oil consumption, 100% recyclable.

- Our engineers designed the TORNADO Eco™ Float System to be rugged, resist corrosion, be impervious to UV radiation, yet uses no internal foam. Still it is unsinkable even if punctured. Other aerators use plastic floats or foam filled floats which are not easily recyclable and consume large amounts of petroleum to manufacture. The TORNADO Eco™ Float System saves petroleum and reduces greenhouse gases created in manufacturing.
- The TORNADO Eco™ aeration system is made from stainless steel and other 100% recyclable metals. Unlike other aerators, no plastic, fiberglass, ceramics or other materials are used. TORNADO Eco™ Aeration Systems are designed to be 100% recyclable anywhere in the world.

New packaging – 100% recyclable packaging. No waste, no trash, no garbage.

- No printed labels, foam or plastics used in packaging. Other aerators package equipment using non recyclable materials. TORNADO Eco™ Aeration Systems lead the industry with 100% recyclable packaging without vinyl or adhesive labels.

TORNADO Eco™ Features

Rugged Solutions in Water and Wastewater

In an effort to be eco-friendly, AEROMIX Systems, Inc. does not offer printed brochures or instruction manuals for the TORNADO Eco™ Aeration System. Please go to www.aeromix.com or contact us at aeromix@aeromix.com to find out more.

AEROMIX offers a complete line of aeration equipment and treatment systems. Our wide range of products include:

- Aerators
- Mixers
- Diffusers
- Packaged Plants
- Compact Water Treatment Systems.

To learn more about our products please visit our website or call 1-800-879-3677 (inside the U.S.) or 763-746-8400 (outside the U.S.).
